

SUPERSTORE SALES ANALYSIS REPORT

Objective:

This report analyzes Superstore's historical sales data to uncover trends, identify top-performing segments, and provide data-driven recommendations for improved profitability and operational efficiency.

Dataset Overview

- **Source:** Secondary data provided by Ganiyat Olajumoke Ajala.
- **Format:** CSV, 9,994 rows × 28 columns.
- **Tools Used:** Power BI (Analysis & Visualizations), Power Query (Data Cleaning).

Data Cleaning Summary:

- Standardized date formats (Order & Ship Dates).
- Converted Postal Code to text for accurate filtering.
- Checked for nulls and blank cells.

Key Findings and Insights

1. Regional Sales Performance

- **West Region** leads with \$725,457.82 in sales, followed by the **East** (\$678,781.24).
- **South** recorded the **lowest sales** at \$391,721.91.
- **Total sales across regions:** \$2.3 million

Actionable Insight:

Focus on the **South region**; consider targeted promotions or localized marketing to drive awareness and demand.

2. Top 5 Best-Selling Products

Rank	Product Name	Sales (\$)
1	Canon ImageCLASS2200 Advanced Copier	61,599.82
2	Fellowes PB500 Electric Punch Binding Machine (Manual Bind)	27,453.38
3	Cisco Telepresence System EX90 Video Conferencing Unit	22,638.48
4	HON 5400 Series Task Chairs (Big and Tall)	21,870.58
5	GBC DocuBind TL300 Electric Binding System	19,823.48

Actionable Insight:

Highlight these high-performing products in promotional campaigns and bundles to maximize revenue potential.

3. Monthly Sales and Profit Trends

- **December** saw peak sales: **\$210,903.50**, likely due to seasonal demand.
- **March** had the highest profit: **\$28,594.69**—possibly due to high-margin products or optimized operations.
- **February** was the lowest for sales (**\$59,751.25**) and
- **September** for profit (**\$8,471.34**).

Actionable Insight:

Strengthen marketing efforts in low-performing months (Feb & Sep) with promotions or discounts to even out cash flow.

4. Sales & Profit by Category

Category	Total Sales (\$)	Profit (\$)	Quantity Sold
Technology	836,154.03	145,454.95	1,847
Office Supplies	719,047.03	122,490.80	6,026
Furniture	741,999.80	18,451.27	2,121

Insights:

- **Technology** generates the **highest profit and sales**, despite lowest quantity sold.
- **Office Supplies** sell in the **highest quantity**, likely due to frequent reorders and lower unit prices.
- **Furniture** has **low profitability** despite high sales, indicating **slim margins or high costs**.

Actionable Insight:

- **Optimize Furniture pricing** and cost structure. Evaluate supply chain and marketing strategies.
- Prioritize **high-margin products** (like Technology) in advertising and upselling.
- Consider **subscription models or loyalty programs** for Office Supplies to retain bulk buyers.

Strategic Recommendations

1. **Regional Strategy:**
Target **South** with location-specific campaigns. Investigate local market preferences and competition.
2. **Product Optimization:**
Promote and stock **top 5 products** more aggressively. Bundle with slower-moving products for cross-selling.
3. **Seasonal Planning:**
Launch strategic campaigns in **February and September** to boost underperforming months.
4. **Profit Improvement:**
Reassess **Furniture category** for potential cost reduction, value pricing, or supplier renegotiation.
5. **Inventory & Demand Management:**
Reduce excess inventory in low-performing SKUs. Use quantity trends to optimize stock levels.
